

Withdrawal form

Use of this form is not mandatory. A notice of withdrawal may be given in any form, including an ordinary email message.

CONDITION OF WITHDRAWAL — READ BEFORE COMPLETING

Withdrawal is possible only and exclusively where the licence Key has not been activated. Activation of the Key constitutes the commencement of use of the digital content and precludes withdrawal from the contract.

This entitlement is more favourable than the law requires: the statutory right of withdrawal lapses as soon as the Key is dispatched, where the Customer consented to immediate supply (Article 38(1)(13) of the Polish Consumer Rights Act). The Developer undertakes to accept a notice of withdrawal up to the first activation — § 8.3 of the General Terms.

The lapse of the right of withdrawal **does not remove** the remedies for the Program's non-conformity with the contract. A complaint may be filed at any time — § 9 of the General Terms.
